This is simple single jumping game with very simple and easy to learn mechanics. Play only if you want to kill your free time. This game contains achievements. A cool game you can play with a simple concept. The levels need a bit more depth and reward but the endless challenge mode is fun.

. Good time killer! Thanks for achievements. Good time killer! Thanks for achievements. BingoBango is a simple and easy jumping platformer (like a Doodle jump) that has some different levels. After completing each of the levels you'll get achievement. Good game. Not bad game

- Good HUD
- Easy to play (comfortable controllings)
- 2 game modes
- Small price
- Excellent time killer

A very fun and enjoyable game, really good time-killer.. Minimalistic game where you basically just jump from platform to platform and try to beat some scores. What made me pretty upset is that it didn't show up on my achievement showcase when I collected them all, but oh well still a great game.

Edit: I like the new levels! Can't wait for even more challenging ones! :). Good time killer with very simple design. Funny, simple and very cheap game. You have some levels to complete and game mode, where your target to beat your own record. Funny, simple and very cheap game.
